- Excellent for use on heifers; a very smooth bodied bull from shoulder to hip. He will definitely add some calving ease to your herd without sacrificing the mature look you need.
- A very easy fleshing individual with excellent feed conversion values. His dam is one of our retained first calf heifers who possesses a tight udder and ideal teat size.
- EPD percentiles include: 2% PAP, 3% DMI, 10% CED, 10% BW, 10% CEM, 15% \$EN, 20% \$M, and 25% HS.

- This long, deep bull is out of the very popular Kesslers Commodore, who continues to stamp his sons with a masculine presence and herd sire potential.
- Qualifies for the CAB program: 10% \$M 10% Claw, 10% Fat, 20% DMI, 25% \$W, 25% Angle, 25% \$EN, 30% HP, and 35% WW.
- Dam is very easy fleshing and is coupled with Baldridge Waylon W34 and KCF Bennett Absolute in her pedigree; calving interval of 373 on 7 calves.

- This bull has moderate growth, is a very easy-fleshing individual with a good shoulder and added muscle expression deep into the hip.
- Overall, a very complete bull with Hoover Dam and Baldridge Breakthrough A091 in his pedigree. His dam has a tight udder and good feet with ideal claw shape.
- Qualifies for CAB program: 10% DMI, 15% \$F, 25% Fat, 35% RADG, 35% CEM, and 35% \$EN.

- Lot 5 is the only "Beast Mode" son in the offering, and he brings a unique set of genetics to the table. He is a very easy-handling bull, and an excellent choice for breeding your heifers.
- Taking into account his phenotype, EPD profile, and fleshing ability, you should get a solid crop of quality, fertile replacement heifers for years to come!
- EPD percentiles include: 5% SC, 10% \$M, 15% Milk, 15% Doc, 15% \$EN, 20% BW, 25% HP, 25% HS, 30% CED, 30% DMI, 35% CEM, and 35% \$W.

- With "sleep all night" calving ease numbers, good growth, and a proven track record, adding this young bull to your battery is an easy decision.
- Qualifies for CAB program: 2% SC, 4% Angle, 10% CEM, 10% MH, 20% Claw, 20% HS, 25% CED, 25% YW, 25% \$W, 30% BW, 30% Marb, 30% \$M, 30% RADG, 35% Doc, and 35% \$G.
- This bull will be available in January, 2025.

Note from Lee:

- We have used this 4-year-old bull on our own herd for the past several years. Unfortunately for us, it's time for him to serve another rancher, since we have retained his daughters.
- We used this bull for cleanup on our heifers and cows; as a yearling and 2-year-old [after AI]. We never had to pull a calf from him.

The Targeting the Brand™ logo is designed to highlight registered Angus bulls with greater genetic potential to produce calves meeting the most challenging specifications of the Certified Angus Beef® brand. Bulls must meet genetic requirements of +0.65 Marbling EPD and +55 \$ Grid of non-parents Angus sires to qualify for use of the Targeting the Brand™ logo.
